

LETTER OF RECOMMENDATION

To Whom it May Concern,

I would like to praise the exemplary skills of Paul Szypula, whom I have worked with on a variety of Interactive projects. He is an extremely motivated and professional individual possessing advanced creative and technical skill sets; which is a very rare combination to find.

An example of Paul Szypula's outstanding work was showcased on the Pontiac Vibe promotional site. Paul designed and Programmed a Flash-based Video interface for a promotional piece I produced. The interface granted the end user an advanced flexibility and immersion into the piece and was designed with a very keen aesthetic. The online video is located at: www.bubblebathgirl.com/projects/gmunk/vibe

Paul and I also have worked together on my promotional sites (<http://www.gmunk.com>) and will continue to work together in the future. I have always trusted Paul's professionalism and advanced knowledge of Flash Design and technology.

Sincerely,

gmunk.bradley grosh
